

Vision

Vision 2030 Tripoli Center Municipality *Together for the Development of the City of Tripoli*

September 2026

Page 06: Section Title

Proposed Projects Tripoli Center Municipality

Page 07 – 11: Health and Integrated Care

Page 07 & 08: Enhancing Digital and Mobile Health Services

- **Project:** Enhancing Digital and Mobile Health Services
- **Description:** Establishing a municipal electronic platform to connect citizens with nearby health centers. It allows opening digital medical files, regular follow-ups for chronic disease patients, and simplifying appointment bookings, while facilitating home care access for critical cases.
- **Mechanism:** Establishing a network connection between the Municipal Administration and health centers, and activating mobile care teams equipped with communication tools and essential equipment.
- **Responsible Entity:** Municipal Health Office in coordination with technical support teams.

Page 09: Rehabilitation and Development of Local Clinics

- **Project:** Rehabilitation and Development of Local Clinics
- **Description:** A comprehensive plan to restore the infrastructure of 15 clinics within the municipality. Maintenance is currently underway on two clinics as an urgent first package (building restoration, electrical and water networks, and basic equipment).
- **Mechanism:** Phased maintenance scheduling to ensure uninterrupted services, assigning specialized companies under direct engineering supervision.
- **Responsible Entity:** Projects Department and Municipal Health Office.

Page 10: Capacity Building for Medical and Administrative Staff

- **Project:** Capacity Building for Medical and Administrative Staff
- **Description:** Continuous training and development programs targeting doctors, nursing staff, and administrative personnel in clinics to improve medical diagnosis quality, handle emergency cases, enhance medical administration governance, and reduce administrative waste.
- **Mechanism:** Organizing periodic workshops and certified training packages in cooperation with local and international specialized training centers.
- **Responsible Entity:** Municipal Health Office.

Page 11: "Model Clinic" through International Partnership

- **Project:** "Model Clinic" through International Partnership

- **Description:** A pioneering model based on friendly foreign embassies "adopting" specific clinics within the municipality to equip them with state-of-the-art international medical equipment and transfer operational systems, making them model reference health centers.
- **Mechanism:** Signing bilateral Memorandums of Understanding (MoUs) through international cooperation channels, and accurately identifying the medical needs of each target clinic to match international quality standards.
- **Responsible Entity:** Municipal Health Office.

Page 12 – 18: Education

Page 12 & 13: Modern Model Schools

- **Project:** Modern Model Schools
- **Description:** Rehabilitating public schools, updating their internal and external urban aesthetics, equipping classrooms with interactive teaching aids, and transforming them into engaging and safe environments for students.
- **Mechanism:** Surveying the most needy schools, launching scheduled maintenance and development campaigns, and establishing unified architectural and visual standards for model schools.
- **Responsible Entity:** Municipal Projects Department.

Page 14: Language and Educational Training for Teachers

- **Project:** Language and Educational Training for Teachers

- **Description:** Intensive courses to enhance the competency of male and female teachers, focusing on modern communication skills, integrating technology into education, along with specialized programs for English language teachers.
- **Mechanism:** Tailored training for educational staff and distributing training materials according to flexible schedules that do not interrupt classes.
- **Responsible Entity:** Education Supervision and Municipal Education Committee.

Page 15: Psychological Support and Wellbeing for Educational Staff

- **Project:** Psychological Support and Wellbeing for Educational Staff
- **Description:** A pioneering initiative addressing teachers' mental health to cope with work stress, providing psychological support and specialized consultations to foster positive energy in classrooms.
- **Mechanism:** Offering specialized psychological support sessions and consultations, organizing awareness programs and regular activities to manage work stress.
- **Responsible Entity:** Education Supervision and Municipal Education Committee.

Page 16: Science Laboratories and Practical Application

- **Project:** Science Laboratories and Practical Application
- **Description:** Equipping schools with necessary scientific tools and laboratories to convert theoretical subjects (Chemistry, Physics, Biology) into interactive practical experiments.
- **Mechanism:** Providing integrated science kits and mobile/fixed labs to schools, and training lab supervisors on safe operational protocols.

- **Responsible Entity:** Education Supervision and Municipal Education Committee.

Page 17: International Student Exchange for High School Students

- **Project:** International Student Exchange for High School Students
- **Description:** Launching a program offering top-performing high school students the opportunity to travel and participate in cultural and knowledge exchange programs with partner international schools and institutions.
- **Mechanism:** Selecting candidates based on merit, and coordinating with partner embassies and international organizations to facilitate educational trips.
- **Responsible Entity:** International Cooperation Office and Education Supervision.

Page 18: School Health Units and Integrated Activities

- **Project:** School Health Units and Integrated Activities
- **Description:** Reactivating school clinics for periodic check-ups and first aid, alongside reviving sports, cultural, and artistic activities to foster a physically and mentally healthy generation.
- **Mechanism:** Allocating equipped rooms in schools, appointing qualified health supervisors, and creating an inter-school activity calendar.
- **Responsible Entity:** Joint coordination between Education Committee, Education Supervision, and Health Office.

Page 19 – 23: Infrastructure and Urban Investment

Page 19 & 20: Housing Development and Addressing Dilapidated Buildings

- **Project:** Housing Development and Addressing Dilapidated Buildings
- **Description:** A strategic project aiming to resolve the crisis of old and collapsing buildings in the city center to protect lives, replacing or reinforcing them with modern, safe residential complexes.
- **Mechanism:** External funding in partnership with a partner country, along with precise engineering surveys of hazardous buildings conducted by technical teams.
- **Responsible Entity:** Investment Department and Urban Planning Department.

Page 21: Tripoli Arteries (Traffic Congestion Solutions & Smart Transport)

- **Project:** Tripoli Arteries (Traffic Congestion Solutions & Smart Transport)
- **Description:** A comprehensive transportation and traffic management plan including studies for a future metro project, launching a safe school bus network, constructing smart multi-story parking garages, and founding an advanced Traffic Data Center.
- **Mechanism:** Collaborating with global consultancy firms for data collection, and attracting investments in public transit and parking sectors.
- **Responsible Entity:** Local Facilities Department, Investment Department, and Urban Planning Department.

Page 22: Al-Shaab Port Tourist Marina

- **Project:** Al-Shaab Port Tourist Marina

- **Description:** A mega project redesigning the Al-Shaab Port waterfront into an integrated tourist and leisure marina (yacht marina, restaurants, cafes, seaside walkways, commercial spaces) to serve as the capital's premier tourist destination.
- **Mechanism:** Offering the project as an investment opportunity for local and international private sectors under Build-Operate-Transfer (BOT) or partnership models.
- **Responsible Entity:** Local Facilities Department, Investment Department, and Urban Planning Department.

Page 23: Revitalization and Restoration of Iconic Historic Buildings

- **Project:** Revitalization and Restoration of Iconic Historic Buildings
- **Description:** Restoring historic facades and buildings of Italian or traditional Islamic architectural styles in the heart of the capital to preserve cultural identity and restore aesthetic charm.
- **Mechanism:** Utilizing specialized restoration techniques that preserve original architectural identity under the supervision of heritage and architectural experts.
- **Responsible Entity:** Urban Planning Department and Projects Department.

Page 24 – 31: Environmental Sustainability and Green Energy

Page 24 & 25: Green Tripoli and Quality Afforestation

- **Project:** Green Tripoli and Quality Afforestation

- **Description:** Planting suitable shade trees between commercial stores and main streets, and launching the "Student Farm" initiative to green open spaces within schools with student participation.
- **Mechanism:** Supplying and distributing suitable saplings, and requiring commercial businesses to maintain green spaces in front of their stores.
- **Responsible Entity:** Sanitation Services Department in coordination with Education Supervision.

Page 26: Green Energy (Solar Lighting)

- **Project:** Green Energy (Solar Lighting)
- **Description:** Replacing traditional power sources in Tripoli Center streets and squares with an intelligent lighting system powered completely by solar panels to reduce grid consumption.
- **Mechanism:** Installing modern street light poles fitted with solar panels and long-life storage batteries along key corridors.
- **Responsible Entity:** Local Facilities Department.

Page 27: Integrated Model Building for Environmental Sanitation Administration

- **Project:** Integrated Model Building for Environmental Sanitation Administration
- **Description:** Constructing and equipping a model facility dedicated to environmental sanitation control, equipped with 5 specialized labs (water, soil, calibration, air pollution, food analysis).

- **Mechanism:** Furnishing the building, installing certified lab equipment, and training technical staff on testing operations and periodic sampling.
- **Responsible Entity:** Environmental Sanitation Office in cooperation with Planning Department.

Page 28: Urban Breath (Restoration of 6 Public Parks)

- **Project:** Urban Breath (Restoration of 6 Public Parks)
- **Description:** Rehabilitating and upgrading 6 main deteriorated public parks within the municipality, equipping them with walking trails, safe children's playgrounds, and green lawns.
- **Mechanism:** Repairing irrigation networks, laying natural turf, installing seating and night lighting, and arranging security and continuous cleaning.
- **Responsible Entity:** Sanitation Services Department and Local Facilities Department.

Page 29: Waste Sorting and Recycling Factory Initiative

- **Project:** Waste Sorting and Recycling Factory Initiative
- **Description:** A pioneer project establishing solid waste management infrastructure by creating a waste sorting and recycling plant to generate economic value and reduce emissions/dumpsites.
- **Mechanism:** Preparing feasibility studies, allocating land, and offering the project as a Public-Private Partnership (PPP).
- **Responsible Entity:** Sanitation Services Department and Local Facilities Department.

Page 31: Green Plastic

- **Project:** Green Plastic
- **Description:** Creating an organized system for collecting, sorting, and delivering plastic waste to recycling entities, utilizing part of the proceeds to fund tree planting and sapling care.
- **Mechanism:** Engaging schools, institutions, mosques, and local communities in source sorting via dedicated bins, then selling to recyclers to fund greening projects.
- **Responsible Entity:** Projects Office of the Undersecretary of Tripoli Center Municipality.

Page 32 – 35: Youth & Women Empowerment

Page 32 & 33: Global Talent Program

- **Project:** Global Talent Program
- **Description:** A practical training program connecting talented Libyan youth with the global job market and international companies via skill development, remote/on-site jobs, and fellowships.
- **Mechanism:** Selecting candidates through advanced digital/professional skill training and building cross-border corporate partnerships.
- **Responsible Entity:** Tripoli Business Center in coordination with International Cooperation Coordinator.

Page 33: Step of Hope Project (Khatwat Amal)

- **Project:** Step of Hope Project
- **Description:** A project focused on rehabilitating individuals recovering from addiction, helping them reclaim their lives and dignity, supporting families, and providing job opportunities.
- **Mechanism:** Based on recovery and rehabilitation pathways focusing on awareness, guidance, and social reintegration.
- **Responsible Entity:** Projects Office of the Undersecretary of Tripoli Center Municipality.

Page 34 & 35: Women Empowerment Initiative

- **Project:** Women Empowerment Initiative
- **Description:** An integrated development program aimed at empowering women within the municipality through vocational, life, and social skills training, while enhancing access to jobs and income.
- **Mechanism:** Phased model: Community outreach -> Specialized training tracks (targeting 1,000–1,500 reached, 150–250 trained) -> Incubation & follow-up for 50 participants.
- **Responsible Entity:** Women Development and Empowerment Office.

Page 36 – 37: Entrepreneurship & Economic Empowerment

Page 36 & 37: Municipal Innovation and Entrepreneurship Program

- **Project:** Municipal Innovation and Entrepreneurship Program

- **Description:** Turning municipal challenges into economic opportunities by supporting innovators, startups, and small businesses, while creating an encouraging ecosystem.
- **Mechanism:** Hosting periodic hackathons to solve municipal challenges, incubating promising projects, and offering mentorship, funding, and marketing support.
- **Responsible Entity:** Tripoli Center Municipal Business Incubator.

Page 38 – 40: Governance Efficiency & Municipal Administration Support

Page 38 & 39: Institutional Development and Capacity Building

- **Project:** Institutional Development and Capacity Building
- **Description:** Updating internal workflows through training administrative staff on local governance, modern project management, and rapid e-services to simplify procedures.
- **Mechanism:** Introducing administrative automation (paperless operations) and holding regular capacity-building workshops.
- **Responsible Entity:** Human Resources Department and Projects Department.

Page 40: Fleet Modernization and Logistics Support

- **Project:** Fleet Modernization and Logistics Support
- **Description:** Renovating municipal facilities, upgrading field service fleets (modern service vehicles, automated street sweepers), and equipping 4 fully-outfitted mobile workshop vehicles for 24/7 emergency facility/lighting repairs.
- **Mechanism:** Scheduling routine maintenance and deploying modern equipment across field teams operating 24/7.

- **Responsible Entity:** Projects Department and Sanitation Services Department.

Page 40: Enterprise Resource Planning System (ERP System)

- **Project:** Enterprise Resource Planning System (ERP System)
- **Description:** Implementing an integrated digital system connecting all departments within the municipality to automate administrative, financial, and project management processes.
- **Mechanism:** Procurement and deployment of the ERP system, alongside staff training on electronic operations.
- **Responsible Entity:** Information Technology Department.

Page 40: Mobile Application ("Baladiyati" / My Municipality)

- **Project:** Mobile Application ("Baladiyati")
- **Description:** Launching an interactive smartphone app allowing citizens to submit requests, track transactions, report issues/complaints, and access services remotely.
- **Mechanism:** Designing and programming the app, linking it with municipal databases, and running a response support center.
- **Responsible Entity:** Information Technology Department.

Page 40: Institutional Capacity Building

- **Project:** Institutional Capacity Building
- **Description:** Executing a comprehensive, continuous training program for municipal personnel to elevate job performance and master modern technologies.

- **Mechanism:** Organizing periodic specialized workshops in administrative, technical, and customer service fields.
- **Responsible Entity:** Human Resources Department.

Conclusion

Conclusion Together for the Development of the City of Tripoli Tripoli Center Municipality
